

Oregon's Measure 98

High School Graduation and College and Career Readiness Act

Improve graduation rates and college and career readiness with AVID

Oregon's *High School Graduation and College and Career Readiness Act* encourages districts to work with nonprofits, such as Advancement Via Individual Determination (AVID), to bring the most effective strategies and scalable programs to high schools so that students graduate high school college- and career-ready!

Districts Target Funds for 3 Areas

AVID can be written into districts' biennial plans (due May 2017) as an evidence-based college and career readiness system that supports all three focus areas.

1 Career and technical education programs

AVID supports CTE teachers and programs with rigorous teaching strategies so that students have the required writing, critical thinking, collaboration, and communication skills to succeed in their careers.

- The AVID Elective can be part of a CTE program of study or start-up course.

2 College-level opportunities for students

AVID helps to expand and open access to rigorous course offerings, as well as improve course content and critical thinking techniques. AVID provides the academic and social support to ensure:

- Rigor + support = student success

3 Dropout prevention strategies

AVID is recognized as a Model Program by the National Dropout Prevention Center/Network. Evaluation results showed:

- Significant improvement in academic performance
- Increases in AP® course enrollment and completion
- Decreases in dropout rates
- Increases in college enrollment

AVID Prepares Oregon Students for College, Career, and Life

AVID Oregon Class of 2016

79%

Took at Least One Course of Rigor

99%

Graduated from High School

88%

Completed Four-Year College Entrance Requirements

Course of rigor: AP®, IB®, Dual Credit, and/or Cambridge® AVID. (2016). AVID senior data collection: N=569 [Electronic Database].

AVID is a nonprofit organization that provides educators with proven, real-world strategies to accelerate the performance of underrepresented students, so these students and all students across the entire campus succeed in college, career, and life.

Leverage Measure 98 Funding to Start or Expand AVID in 2017-18

New state funding will open doors for even more students, particularly underrepresented students, to go to college. Oregon districts can use funds to establish or expand AVID!

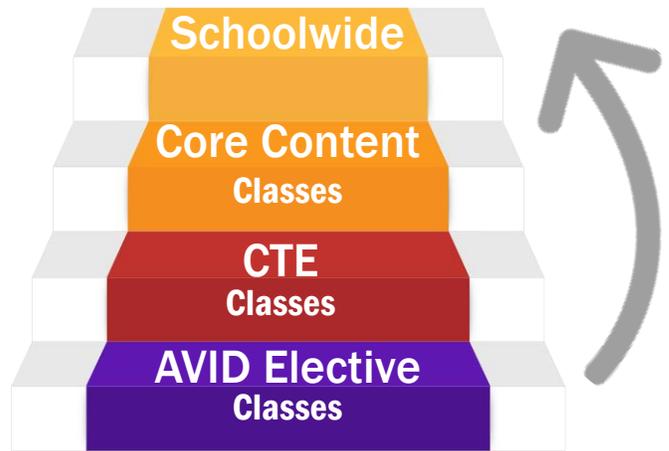

EXPAND AVID for Greater Student Impact

Under Measure 98, Rule 11, you can expand your existing AVID program to serve more students. Here's how:

- Increase the number of AVID high schools.
- Add more AVID Elective classes.
- Train more educators in AVID instructional methodologies for schoolwide impact.
- Equip CTE teachers with an AVID “toolbox” full of ready-to-use strategies to prepare students for today’s workforce.

AVID Career and Technical Education (CTE) Professional Learning Strand

Steps to taking AVID Schoolwide

START AVID and Reduce the Opportunity Gap

With Measure 98’s focus on student equity and engagement, AVID is a natural fit. For over 11 years, AVID has provided Oregon educators with a proven system for increasing academic rigor, creating engaging learning environments, and accelerating student performance. AVID does this through:

PROFESSIONAL LEARNING

AVID promotes student achievement at the highest levels. Through extensive and engaging professional development, educators are provided the tools, methodology, and support to strategically improve the performance of all students.

CURRICULUM

AVID provides rigorous, sequential implementation materials and guides, developed by experienced teachers and aligned with national standards that are established by national math, science, language arts and history/social science associations.

DATA & CERTIFICATION

AVID ensures continuous improvement in schools through its formal data collection and certification processes, which document project outcomes, measure program integrity, and recognize schools that have fully and successfully implemented AVID.

COACHING & SUPPORT

AVID facilitates continuous progress toward goals through virtual and onsite coaching that supports implementation, assessment of student outcomes, and overall school improvement.
