"As a district, we have been immersed for the past couple of years in the work of John Hattie's Visible Learning. Yet our schools have struggled to fully bridge the gap between the research and classroom practice. AVID has provided a framework to help us make this connection. Our teachers have embraced the WICOR standards to broaden their instructional practices and schools have worked to develop a college-going culture. As a result, we are beginning to see more of our students enter Advanced Placement® courses and view themselves as college-capable learners. AVID is central to our school improvement efforts in the district."
